What our customers say!

"Extremely professional company...super fast and efficient, great to do business with!! Highly recommended!! 5 Stars "- lan Connery

"Phoenix Electrical Services (aka Electric Car Charger Ireland) fitted our Zappi v2 car charger and I couldn't be happier.

Everything from the initial communication to the actual work done was to the highest standards with a great level of professionalism.

I highly recommend them without any reservations!" David Lau.

"Not only were they the best value, the customer service was second to none relative to other companies I contacted.

The crew arrived promptly and did a fantastic job. I'm delighted with the charger and would have no hesitation recommending this service." Mary McGuinness.

electriccarcharger.ie, powered by Phoenix Electrical Services.

Phoenix Electrical Services have been providing electrical services to the Commercial, Industrial & Domestic industries for over 36 years.

Based in Glenageary South Co. Dublin with operations throughout Ireland, Phoenix Electrical Services Dublin can service both individual projects as well as large Corporate Maintenance contracts with our large team of expert registered Electricians.

"I believe professionalism and safety are top priority when it comes to electrical services"

Alan Mac Loughlin, Managing Director

ELECTRIC CAR CHARGERS

TAKE THE CONFUSION OUT OF THE EV CAR CHARGER BUYING & INSTALLATION PROCESS WITH THESE SIMPLE STEPS

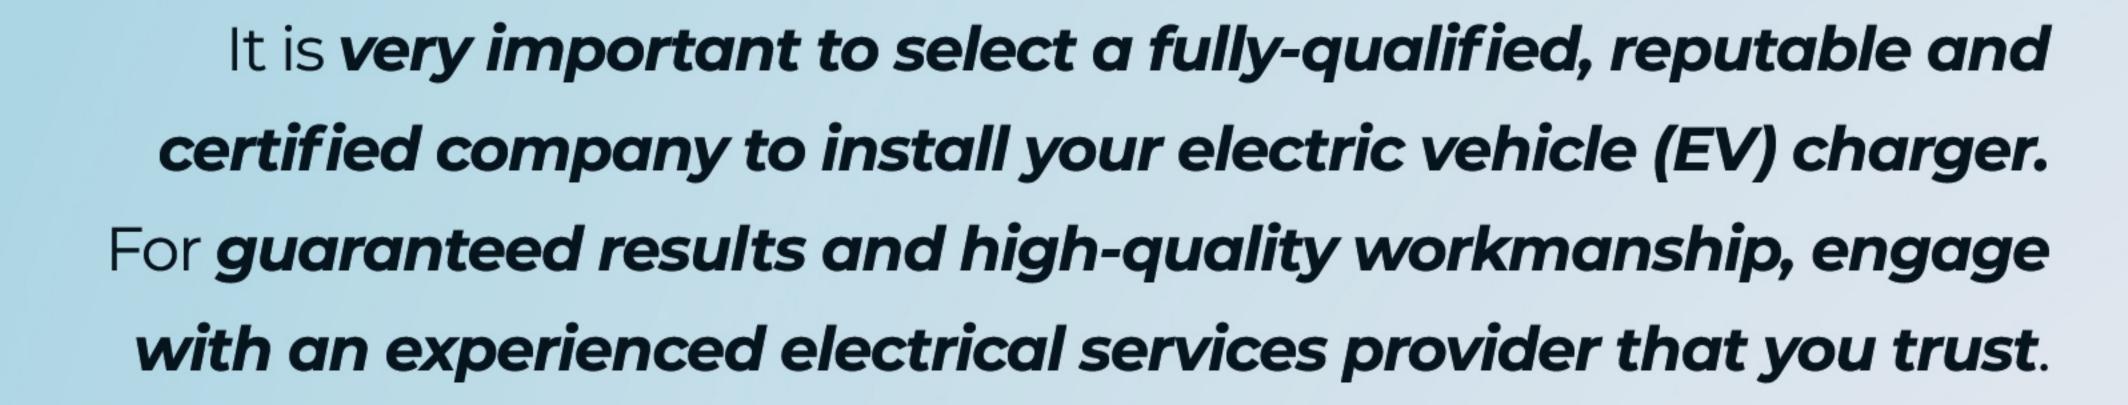

ELECTRICCARCHARGER.IE

Suite 1, Rear Unit 7, Church Place, Glenageary, Dublin, A96 A9Y0 e: info@electriccarcharger.ie | t: +353 1 515 93 36

LET'S GET STARTED!

Owned and managed by *Phoenix Electric Services and bringing*over 35 years of experience, electric carcharger.ie is one of the top

installation and service providers in Ireland.

Get in touch with one of our experts by scanning

the QR code below.

2 CHOOSE YOUR CHARGER

With all the chargers out there, how do you know which one is right for you? *electriccarcharger.ie offers three different categories of chargers.* We have some basic no-frills chargers suitable for all types of electric vehicles all the way up to our commercial range.

PLEASE SEE OUR BACK PAGE FOR A COMPARISON TABLE

J GET YOUR GRANT!

If you are a private owner of an eligible EV in Ireland, you can apply for a government supported grant of up to €600 to assist with the cost of installing an electric vehicle charge point at your property. So be sure to take advantage of these cost savings by following these steps!

CALL ELECTRICCARCHARGER.IE ON (01) 515 93 36

Unlike a lot of other installers in the market, we work with our customers from the outset and will **come out to your property to conduct a free survey** to determine the best charging solution tailored to your needs.

GET SOME DETAILS TOGETHER!

From your electricity bill, take note of your MPRN number, your address Eircode and the make, model and battery size of the electric vehicle.

APPLY FOR YOUR GRANT

Go to seai.ie to apply for your grant

Wait for for your Letter of Offer before commencing any work, otherwise your grant may be forfeited. It usually takes 1-2 weeks to receive your offer letter.

Congratulations! You are over the finish line of buying your new electric vehicle, applying for your grant and installing a car charger using a reputable provider, like electric carcharger.ie.

For further information, scan the QR code to the left and happy electric motoring!
